Creative, Productive, Joyous Lives

Hello Cedars Families,

As we have communicated to you over the last several months, Cedars has been working especially hard to prevent yet also prepare for the unfortunate possibility of a staff member or resident contracting COVID-19. As we have done this work, our priorities have been quite clear to us:

- **Ensure the health and well-being of our residents and staff.**
- Make sure our staff are informed and well prepared to take care of themselves and residents prior to but especially if someone within the organization comes down with the virus.
- Comply with all the complex rules and regulations regarding mandated safe practices and human relations/legal requirements.
- Be transparent and accountable to our constituents, which certainly includes you.

Despite our best efforts at preventing the spread of the COVID-19 virus to Cedars homes, we are writing to inform you that we have just learned that there has been a positive test result at one of our homes. As of this writing, **all family members at the affected home have already been contacted. Also, as is our practice, we are doing everything possible to reduce cross exposure by maintaining stable cohorts within each of the homes.** While we can't share personal healthcare information broadly, we can let you know that we have been preparing for this possibility and have been following a strict protocol

**Again, let us emphasize that the health and safety of Cedars residents and staff is our highest priority at this time.** We also want you to feel as comfortable as you can about the situation, so will provide you with updated information regularly and as it becomes available.

If you have any questions, please feel free to contact any one of us.
